

THE JAMES A. BAKER III INSTITUTE FOR PUBLIC POLICY  
RICE UNIVERSITY

The mission of the Baker Institute is to help bridge the gap between the theory and practice of public policy by drawing together experts from academia, government, media, business and nongovernmental organizations. By involving policymakers and scholars, as well as students (tomorrow's policymakers and scholars), the institute seeks to improve the debate on selected public policy issues and to make a difference in the formulation, implementation, and evaluation of public policy, both domestic and international. The Baker Institute is an integral part of Rice University, one of the nation's most distinguished institutions of higher education. The efforts of Baker Institute fellows and affiliated Rice faculty focus on several ongoing research projects, details of which can be found on the institute's Web site, <http://bakerinstitute.org>.

THE BAKER INSTITUTE ENERGY FORUM

Located in Houston, Texas, the energy capital of the world, the Baker Institute has created a multifaceted program designed to promote original, forward-looking discussion and research on the energy-related challenges facing our society in the 21st century. The mission of the Energy Forum is to shed light on important trends—both regional and global—that shape the nature of global energy markets and influence the quantity and security of vital supplies needed to fuel world economic growth and prosperity. Our choice of the word “forum” is deliberate. It reflects our goal to serve as a focal point for the exchange of ideas on how to improve understanding of the complex political, cultural, religious, economic, and social forces that influence open access to energy resources and their equitable distribution.

THE AMERICAN JEWISH COMMITTEE

Over the course of its 100-year history, the American Jewish Committee (AJC) has worked to safeguard minorities; fight terrorism, anti-Semitism, hatred, and bigotry; pursue social justice; advance human dignity; support Israel's right to exist in peace and security; defend religious freedom and provide humanitarian relief to those in need. Through innovative programs, education, research, and extensive diplomatic outreach and advocacy, AJC works to advance freedom, liberty, tolerance and mutual respect. Please visit the Web site at [www.ajc.org](http://www.ajc.org) for more information.

SEARCHING FOR  
ENERGY SECURITY

14 MAY 2007

BAKER HALL

THE BAKER INSTITUTE ENERGY FORUM  
THE JAMES A. BAKER III INSTITUTE FOR PUBLIC POLICY  
RICE UNIVERSITY

AND

THE AMERICAN JEWISH COMMITTEE

**WELCOME AND INTRODUCTION**

AMY MYERS JAFFE  
WALLACE S. WILSON FELLOW IN ENERGY STUDIES,  
THE BAKER INSTITUTE

DAVID KAHNE  
ENERGY CHAIR, THE AMERICAN JEWISH COMMITTEE

**PANEL DISCUSSION**

**SEARCHING FOR ENERGY SECURITY**

WITH

RICHARD SEARS  
VICE PRESIDENT FOR EXPLORATION AND DEEPWATER TECHNICAL EVALUATION,  
ROYAL DUTCH SHELL

DR. GAL LUFT  
EXECUTIVE DIRECTOR, INSTITUTE FOR THE ANALYSIS OF GLOBAL SECURITY

AND

DR. TERRY HALLMARK  
DIRECTOR OF POLITICAL RISK AND POLICY ASSESSMENT, IHS

**QUESTION AND ANSWER SESSION**

MONDAY, MAY 14, 2007  
7:30 PM

KELLY INTERNATIONAL CONFERENCE FACILITY  
BAKER HALL  
RICE UNIVERSITY

**Amy Myers Jaffe** is the Wallace S. Wilson Fellow in Energy Studies at the James A. Baker III Institute for Public Policy and associate director of the Rice University energy program. Her research focuses on the subject of oil geopolitics, strategic energy policy including energy science policy and energy economics. Jaffe is widely published in academic journals and numerous book volumes and served as co-editor of *Energy in the Caspian Region: Present and Future* (Palgrave, 2002) and *Natural Gas and Geopolitics: From 1970 to 2040* (Cambridge University Press, 2006). She served as a member of the reconstruction and economy working group of the Baker/Hamilton Iraq Study Group and as project director for the Baker Institute/Council on Foreign Relations task force on Strategic Energy Policy. She was among *Esquire Magazine's* 100 Best and Brightest honorees in the contribution to society category in 2005. Prior to joining the Baker Institute, Jaffe was the senior editor and Middle East analyst for *Petroleum Intelligence Weekly*, a respected oil journal. She received her bachelor's degree in Arabic studies from Princeton University.

**David Kahne** serves on AJC's executive committee and chairs the domestic affairs committee that has initiated programs on separation of church and state, public education and tonight's energy forum. A lawyer in private practice, his practice focuses on constitutional law, civil and property rights. This includes freedom of speech and discrimination; housing rights, such as for persons with disabilities and homeowners in associations; and protecting small businesses, landowners, poor people, and environmentalists from arbitrary government action. Kahne graduated with honors from Harvard Law School (1984), and clerked for Justice Handler (N.J. Supreme Court) and Chief Judge Fullam (E.D.Pa.). He recently authored "A Bill of Rights for Homeowners in Associations: Basic Principles of Consumer Protection and Sample Model Statute" (AARP 2006).

**Richard Sears** is Royal Dutch Shell's vice president for exploration and deepwater technical evaluation. Sears has also recently joined M.I.T.'s Laboratory for Energy and the Environment (LFEE) as a visiting scientist. This three-year appointment, a first for the company, will strengthen ties between the M.I.T. and Shell research communities and enhance opportunities for developing innovative solutions to the world's mounting energy problems. Sears has significant domestic and international experience in oil and gas exploration and discovery, and he is a leading expert in the search for and development of new hydrocarbon resources in the deep ocean (water depths of more than 500 meters). Since joining Shell in 1976, he has held technical and management positions in the United States and Europe.

Sears has significant domestic and international experience in oil and gas exploration and discovery, and he is a leading expert in the search for and development of new hydrocarbon resources in the deep ocean (water depths of more than 500 meters). Since joining Shell in 1976, he has held technical and management positions in the United States and Europe.

**Gal Luft** is executive director of the Institute for the Analysis of Global Security (IAGS) and co-chair of the Set America Free Coalition, an alliance of national security, environmental, labor and religious groups promoting ways to reduce America's dependence on foreign oil. Luft assesses alternative sources of energy and specializes in strategy, geopolitics, terrorism, Middle East and energy security. *Newsweek* called him a “tireless and independent advocate of energy security.” Luft has published numerous studies and articles on security and energy issues in various newspapers and publications such as *Foreign Affairs*, *The American Interest*, *Commentary Magazine*, *Middle East Quarterly*, *Los Angeles Times*, *The Washington Post* and *The Wall Street Journal*. He appears frequently in the media and consults to various think tanks and news organizations worldwide. Luft has testified before committees of the U.S. Congress, including Senate Foreign Relations, House International Relations, House Science and the U.S.-China Economic and Security Review Commission. He is a board member of the Center for Energy Defence and a member of the Society of Industry Leaders, the Committee on the Present Danger and other nonprofit groups. He holds degrees in international relations, international economics, Middle East studies and strategic studies and a doctorate in strategic studies from the Paul H. Nitze School of Advanced International Studies (SAIS), Johns Hopkins University.

**Terry Hallmark** began his career more than 20 years ago with IHS (then Petroconsultants). Prior to joining IHS, he was a research assistant at the Claremont Institute for the Study of Statesmanship and Political Philosophy in California. He has served as an advisor to international oil and gas exploration companies, financial institutions and governmental agencies. Though his diverse client roster he has developed considerable global experience. A recognized expert in the field, Hallmark has lectured at several international industry forums and universities on political risk assessment and has written for several high-profile industry publications, including *Petroleum Economist*, *Offshore Magazine* and *American Oil and Gas Reporter*. He has also contributed to “The Handbook of Country and Political Risk Analysis,” which provides an overview of political risk assessment methodologies. Based in Houston, Hallmark leads the political risk and policy assessment division at IHS. His expertise in geopolitics, energy security and the “above ground risks” facing oil and gas exploration companies has culminated in an impressive record of accurately predicting future political events and contingencies.
